# History of Porto Carras Grand Resort

Initially a monastic property in its majority, the land of 1,763 hectares on which the resort is built came into the possession of **Giannis Carras** at the end of the 1960s. It all started with a cruise to Mt Athos, for the celebration of the 1000 years since the creation of the monastic community of Athos. Known Athenians, along with ship owner Giannis Carras, are aboard the yacht of the Greek tycoon. They cruise offshore Sithonia, enter the Toroneos Gulf and... the fairytale begins. Giannis Carras falls in love with the virgin site. The constructions began in 1973, with **Villa Galini**; on the rocky and infertile Galani hill, named after a thief who was killed there, the famous villa was built, extending on a surface of two thousand square meters. A sample of unique architecture and beauty, furnished with exceptional monastic furniture and unique art works, featured in the '70s magazines as one of the most beautiful buildings of the country.

# History of Porto Carras Grand Resort

Within 3 years the area radically changed thanks to the marsh drainage scheme; huge numbers of trees which were planted, an olive grove of 45,000 olive trees and a vineyard covering 475 hectares were created.

In 1976 **Village Inn** opens its doors bringing a true revolution in Greece's tourist and cultural image, while **Porto Carras Meliton** opens in 1979 and **Porto Carras Sithonia** in 1980.

Few places in Greece were and still are so frequently visited by such a great number of famous and important people: Queen Juliana of Holland, Salvador Dali, the son of Aga Han, Stavros Niarhos, Rudolf Nureyev, François Mitterrand, Konstantinos Karamanlis, Margot Fonteyn, Joan Baez, Fiona Von Thyssen, the Rockfellers, Prince Albert of Monaco, President Puttin, Valury Giscard d'Estaing are only some of them.

## The acquisition

In 1999 **Technical Olympic Group** submitted the highest bid during the relevant tender of the National Bank for the sale of Porto Carras. Ever since the Chairman and Managing Director, **Konstantinos Stengos**, made purpose of his life to bring Porto Carras Grand Resort to the foremost rank of the international tourist market.

## Environment & Eco Hospitality

Proud of our tradition of service, we also look to the future by supporting the environment with a “**green policy**” (awarded once more with the **Green Key Eco Label**): triple desalination and drinking water production plant, state-of-art biological waste treatment plant, organic cultivation, systematic recycling, and product quality control. Also, the beaches, along with the Marina, get awarded each year with the International mark of the **Blue Flag**.

## Porto Carras Marina

The **Porto Carras Marina**, is the largest private marina of Northern Greece receiving a **Blue Flag** every year. With a possibility of accommodating up to 315 vessels, the marina is 5.5 metres deep and allows access to yachts up to 55 metres in length. There are 296 utility points for power supply (220-380 volt) and water supply of vessels, telephone and data TV service. More over, 40 street lamps, life saving appliances and permanent fire fighting installation, fuel station, showers, washing machine, dryer and iron, a vessel repair crew, dry docking area, as well as restaurants and shops.

# Domaine Porto Carras

## Vineyards & Winery

As the verdant slopes of Mt. Meliton stretch down to mingle with the crystal clear waters of Toroneo Bay, 475 hectares of the largest Greek vineyards lie in amphitheatre-like formation. The "**Slopes of Mt. Meliton**" vineyards are some of the largest in Europe and a model of organic viniculture.

The exceptional climate conditions allow the selected varieties of Asyrtiko, Athiri, Malagouzia, Sauvignon Blanc, Viognier and Rhoditis, to produce the highest quality white wines. Among the reds, the renowned Greek Limnio variety referred to in texts of Aristotle, stands out accompanied by the cosmopolitan varieties Cabernet Sauvignon, Cabernet Franc, Cinsaut, Merlot and Syrah.

The wines are vinified with skill and care within the Winery's state-of-the-art facilities by experienced enologists, students of the great Emile Peynaud.

The olive grove is the first golf course in Northern Greece and hosts top level International championships.

The “**Olive Grove**” course is often characterised as "romantic" and is widely recognised by all golfers who have played on this course even once. The strategic water obstructers and the bunkers provide tension in every stroke, while from each starting points a player may enjoy different views, such as: Mountains Itamos and Meliton, Porto Carras vineyards in the middle, Villa Galini, the sea, the sea side village of Neos Marmaras and of course the natural landscape of unparalleled beauty at Porto Carras.
